

## Year 7: Home Learning 2017 - 2018

Subject teachers set students learning activities to complete at home to:

- develop individual study skills
- encourage the motivation to learn
- reinforce learning in class.

In Year 7 students should spend up to 30 minutes on each subject.

The home learning timetable below shows when tasks will be set in each subject. It is important to organise home learning carefully and complete tasks on time.

Students are expected to complete tasks to the best of their ability.

All students have a planner to record details of their learning activities. We ask parents and carers to take a regular interest in home learning and sign the planners every week, this will strengthen the partnership between home and school.

We trust that all parents and carers will support their children by ensuring that they have a suitable place to study and encouraging them to take a pride in their learning.

If a student loses or defaces his/her planner a paper booklet replacement must be purchased (£3.00).

Please do not hesitate to contact the School if you have any questions or concerns about home learning arrangements.
